
GO! Paint

Innovation in decoration

Paint and Go

Paint System

One set for your paint job

- Paint kettle for freedom of movement
- Inliner for quick colour change
- Clip to keep your brushes in perfect condition
- A lid for keeping paint fresh

GO! Paint

Innovation in decoration

Paint and Go is a complete system which consists of a metal paint kettle, an inliner, a brush clip and a firmly closed lid. Paint and Go allows the painter freedom of movement.

Painter friendly

- With the handle of the kettle you can carry the paint where ever you go
- Or you hang the kettle on the ladder and your hands are free

Perfect condition of brushes

- Brushes which are not in use, can be clicked into the brush clip Clip and Go or the clips of Connect and Go
- There is no inconvenience of loose brushes and the brushes stay in perfect condition

Unique system of inliner

- For a quick colour change simply replace the inliner with a new one
- The sharp edge enables excess paint to be removed from the brush
- The excess paint flows straight back into the inliner
- No rust will arise in the paint kettle when using waterbased paints

Perfect storage

- The paint stays fresh and ready to use with the firmly closed lid
- The paint kettles are conical: easy to stack when empty

Connect and Go, your all-in-one paint workstation

- Press Connect and Go ring directly onto the metal paint kettle this will enable:
 - Unique multi-position handle
 - Click inliner upside down onto the ring, this will function as a lid
 - So your brushes and paint will stay fresh and ready for re-use
 - Connect and Go, for painting and storing

Paint and Go, for freedom of movement

Paint and Go is a product of:
